## TECHNICAL DATA SHEET

### **BVZyme GO MAX 65®**

Bakery Enzyme

#### **Product Description**

Enzyme preparation based on **Glucose oxidase**

#### **Effective material**

BVZyme GO MAX65 is glucose oxidase which produced by fermentations a selected strain of *Aspergillus niger* and *Trichoderma reesei*

#### **Activity**

11000U/g

#### **Application**

BVZyme GO MAX 65® is used in bakery to enhance the gluten networks

#### **Function**

Increase **dough tolerance and** strength,improve the stability and,volumn and fermentation stability.

#### **Dosage**

5-40 ppm

#### **Organoleptic**

Aspect: free flowing powder

Color: white- white cream

#### **Physicochemical**

Moisture: <15%

FOOD SAFETY DATA	
<b>Microbiology</b>	Total plate count: <50 000UFC per g
<b>indicative values (m)</b>	Salmonella: absent in 25g
<b>satisfactory: m</b>	Coliforms at 30°C: <30 UFC per g
<b>acceptable: 10m</b>	ASR: <30 UFC per g
	Staphylococcus aureus: absent in 1 g
<b>Heavy metals</b>	Cadmium: < 0,5 mg/kg
	Mercury: <0,5 mg/kg
	Arsenic: < 3 mg/kg
	Lead: < 5 mg/kg
<b>Allergens</b>	In compliance with the list of major allergens in Annex II, Regulation 1169/2011, this product contains the following allergens: gluten
<b>GMO status</b>	In accordance with European Regulations 1829/2003 and 1830/2003, no specific labeling is required.
<b>Ionization status</b>	Without irradiation treatment

### Package:

Carton box of 25 kg

### Storage

Date of minimum durability: 24 months.

Store in a cool, dry place (below 20°C).

**Last updating:** 05/02/2024
